This material can best be characterized as an informative guide in meeting investigative problems in the African field. (S)(u)

NYO files reflect African sources, organizations and case files not mentioned in this material and it is more than likely that this prevails in other offices. This is pointed out to indicate instant data is not all inclusive. (S)(u)

It does, however, appear to contain such information as might be utilized for:

- a) Sources of general information
- b) Established sources of information, in particular areas of Africa.
- c) Possible informants.

(S)(u)

UACB, it is not suggested that offices receiving copies of this communication initiate a program of contacting all individuals and organizations indicated in respective field divisions. This would not preclude, however, such contacts in the event it became necessary or opportune for any number of reasons. (S)(u)

However, prior to contacting any of the possible sources mentioned, the normal preliminary steps should be taken to assure that a particular individual or organization should not be contacted. (S)(u)

In the case of institutions of learning, contacts should be made in accordance with existing instructions relative to such interviews. (S)(u)

In some instances, such as the Ford Foundation, Bureau authority should be obtained prior to contact. (S)(u)
